I believe that well-planned curriculum has a large role in the success of products and that every training program should be tailored to be learner-centered based. I am seeking a challenging position in curriculum development where I can strategically and innovatively design and develop training that merges my knowledge of technology with my expertise in learning design.

Professional Experience

Instructional Designer, Remote. 2018 - Present

Sea Pines Resort and Converging Solutions

- Collaborate and consult with SMEs, clients, and designers on the effective use of instructional design strategies.
- Coordinate the development of instructional materials that are functional, informative, and consistent with sound instructional design principles.
